## Facilities Director Report – July 2024

### Pitch and training paddock

Both have experienced a hard season due to exceptionally bad weather and constant use.

During the club fun day I was pleasantly surprised how quickly both had recovered. At the time of writing this report Moorcourt Groundcare are setting about their post season maintenance - this includes cutting, levelling low spots, spiking to aerate the turf, seeding and top dressing. In addition to this, all surrounding areas will receive a makeover.

### Clubhouse

Throughout the season we have continued regular maintenance and servicing. We have appointed new plumbing and electrical contractors who have settled in well.

### Projects

- During my time as a board member I have had the pleasure of being involved in the following
- Project All Change
- Kitchen extension.
- Construction of the patio at the rear of the club.
- Construction of the stand.

*TEAMWORK  
SPORTSMANSHIP*

*RESPECT*

*ENJOYMENT*

*DISCIPLINE*

- Footpath from the patio to the pitch.
- Footpath from the pitch entrance to the stand.

### **Pipeline projects under investigation**

- Solar panels on the roof
- Upgrading pitch lights
- Possible additional lights to training area

I feel its always good to put something back into the club that you love and this was my way.

I would like to thank all board members for their support during my time as a director and wish them well in the future.

Regards

Jim Mason
